CFAN 3333 - Insects, Microbes, and Plants

Fall Semester 2014

3 credits
Fall Semester
Department of Plant Pathology
Department of Entomology
College of Food, Agricultural and Natural Resource Sciences
University of Minnesota

Course Prerequisites: General Biology (BIOL 1009) or equivalent

Instructors: Kristina Prescott (Entomology)
Brett Arenz (Plant Pathology)

Class Sessions (Both in 146 McNeal Hall)
Lectures
Time: 11:45 am - 12:35 pm, Mondays and Wednesdays
Discussion
Time: 11:45 am - 1:15 pm, Fridays

Class Website: The class website (a Moodle Site) can be accessed through myU.

Contacting Brett Arenz:
- E-mail: aren0058@umn.edu - this is generally the fastest way to contact me
- Office: 105A Stakman Hall (if I’m not in my office, check in the Plant Disease Clinic next-door in 105 Stakman
- Office Hours: Wednesday 1:00 pm to 2:00 pm or by arrangement
  Wheelchair access to Stakman Hall is gained via Borlaug Hall on Buford Circle
- Phone: 612-626-6653
  I am often out of my office but have voice mail and check it regularly. Leave me a message with your name, phone number and a good time to try to reach you if you would like me to return your call.
- Mail Box: located in Plant Pathology main office - 495 Borlaug Hall

Contacting Kristina Prescott:
- E-mail: Presc030@umn.edu - this is the fastest and easiest way to contact me
- Office: 232 Hodson Hall (check also the insect ecology lab across the hall at 241 Hodson Hall)
- Office Hours: Monday 1:00 pm to 2:00 pm or by arrangement
  My lab phone is shared, thus it can be difficult for me to receive messages. If you would like to talk by phone, please email me your number and a good time to reach you.
- Mail Box: located in Hodson Hall 230
Course Description:

Worldwide losses to pest insects and microbes are so great that projected demands for food and fiber could be completely met by reducing these losses. This course uses fundamental concepts of ecology and evolution to illuminate and solve the challenges in managing insects and microbes in today’s global context of food and fiber production. Students will learn relevant aspects of insect and microbial biology to be able to situate concrete management problems in an appropriate ecological and evolutionary conceptual framework. Students will apply these concepts and debate ecological and management controversies, such as what can we learn from natural areas to better manage food and fiber production systems. Case studies, readings and discussion topics will emphasize factors influencing responsible management decisions. The course is organized into three main sections. The first emphasizes classical approaches to managing insects and microbes in production systems, and will draw on case studies from around the world. The second section is focused on species interactions. We elaborate these topics in the context of how they influence the risk of losses in the production systems. Part 3 focuses on evolutionary processes that complicate management, concentrating on the evolution of virulence, which can generate new strains or transform the population.

Student Learning Outcomes:

- Identify and define pest management problems in real-world contexts
- Locate and evaluate relevant information on particular pest management problems
- Relate basic principles of ecology and evolution to managing pests
- Recognize socio-economic constraints to pest management in diverse societies globally
- Use the principles of ecology and evolution to frame solutions to pest problems
- Improve presentation skills through informal and formal class presentations
- Solve a significant real-world pest management problem

Student Workload Expectations for CFAN3333. One credit represents, for the average University undergraduate student, three hours of academic work per week (including lectures, laboratories, recitations, discussion groups, field work, study, and so on), averaged over the semester, in order to complete the work of the course to achieve an average grade. Thus, enrollment for this 3 credit class represents approximately 15 hours of work per week, on average, over the course of the semester or 135 hours total over the course of the semester (3 credits x 3 hours of work per week x 15 weeks in the semester).

Auditing CFAN3333. Students auditing CFAN3333 are required to pay full tuition but do not take exams and are not required to do homework. University policy stipulates that students may not sit in on a class without registering for it. A student will be allowed to take a previously audited class for a grade.

Course Expectations: You are expected to attend all lectures and discussion sessions, be attentive during class, ask questions if you do not understand something, and participate in class activities and discussions.

If you have questions or problems with the course please talk to your instructor as soon as possible. If at any time during the course you feel we are not covering information you would
like to cover or if we are going too fast over material please let your instructor know. This will not affect your grade.

Policy Statements

Student Conduct Code:
The University seeks an environment that promotes academic achievement and integrity, that is protective of free inquiry, and that serves the educational mission of the University. Similarly, the University seeks a community that is free from violence, threats, and intimidation; that is respectful of the rights, opportunities, and welfare of students, faculty, staff, and guests of the University; and that does not threaten the physical or mental health or safety of members of the University community.

As a student at the University, you are expected adhere to Board of Regents Policy: Student Conduct Code. To review the Student Conduct Code, please see: http://regents.umn.edu/sites/default/files/policies/Student_Conduct_Code.pdf.

Note that the conduct code specifically addresses disruptive classroom conduct, which means "engaging in behavior that substantially or repeatedly interrupts either the instructor’s ability to teach or student learning. The classroom extends to any setting where a student is engaged in work toward academic credit or satisfaction of program-based requirements or related activities."

Students are reminded that disrupting a class can lead to dismissal from that class period. Students who engage in behavior that disrupts the learning environment for others may also receive a reduced final grade and are potentially subject to disciplinary action.

Use of Personal Electronic Devices in the Classroom:
Using personal electronic devices in the classroom setting can hinder instruction and learning, not only for the student using the device but also for other students in the class. To this end, the University establishes the right of each faculty member to determine if and how personal electronic devices are allowed to be used in the classroom.

The use of cell phones in CFAN 3333 is prohibited. Laptops are allowed in the classroom for certain uses, though students may be directed to turn off any personal electronic devices if the device is not being used for class purposes.

Scholastic Dishonesty:
You are expected to do your own academic work and cite sources as necessary. Failing to do so is scholastic dishonesty. Scholastic dishonesty means plagiarizing; cheating on assignments or examinations; engaging in unauthorized collaboration on academic work; taking, acquiring, or using test materials without faculty permission; submitting false or incomplete records of academic achievement; acting alone or in cooperation with another to falsify records or to obtain dishonestly grades, honors, awards, or professional endorsement; altering, forging, or misusing a University academic record; or fabricating or falsifying data, research procedures,
or data analysis. (Student Conduct Code: http://regents.umn.edu/sites/default/files/policies/Student_Conduct_Code.pdf)

If it is determined that a student has cheated, he or she may be given an “F” or an “N” for the course, and may face additional sanctions from the University. For additional information, please see: http://policy.umn.edu/Policies/Education/Education/INSTRUCTORRESP.html.

The Office for Student Conduct and Academic Integrity has compiled a useful list of Frequently Asked Questions pertaining to scholastic dishonesty: http://www1.umn.edu/oscai/integrity/student/index.html.

If you have additional questions, please clarify with your instructor. Your instructor can respond to your specific questions regarding what would constitute scholastic dishonesty in the context of a particular class e.g., whether collaboration on assignments is permitted, requirements and methods for citing sources, if electronic aids are permitted or prohibited during an exam.

Students in CFAN 3333 are expected to do their own work, even though group activities and discussion among students is strongly encouraged.

Scholastic dishonesty, including plagiarism, will not be tolerated in CFAN 3333. Plagiarism means representing the words, creative work, or ideas of another person as one’s own without providing proper documentation of source. Examples include, but are not limited to:

- Copying information word for word from a source without using quotation marks and giving proper acknowledgement by way of footnote, endnote, or in-text citation;
- Representing the words, ideas, or data of another person as one’s own without providing proper attribution to the author through quotation, reference, in-text citation, or footnote;
- producing, without proper attribution, any form of work originated by another person such as a musical phrase, a proof, a speech, an image, experimental data, laboratory report, graphic design, or computer code;
- paraphrasing, without sufficient acknowledgment, ideas taken from another person that the reader might reasonably mistake as the author’s; and
- borrowing various words, ideas, phrases, or data from original sources and blending them with one’s own without acknowledging the sources.

Makeup Work for Legitimate Absences:
Students will not be penalized for absence during the semester due to unavoidable or legitimate circumstances. Such circumstances include verified illness, participation in intercollegiate athletic events, subpoenas, jury duty, military service, bereavement, and religious observances. Such circumstances do not include voting in local, state, or national elections. If you know you may need to miss a class be sure to consult an instructor beforehand to make sure the absence is excusable! For complete information, please see: http://policy.umn.edu/Policies/Education/Education/MAKEUPWORK.html.

Appropriate Student Use of Class Notes and Course Materials:
Taking notes is a means of recording information but more importantly of personally absorbing and integrating the educational experience. However, broadly disseminating classroom notes beyond the classroom community or accepting compensation for taking and distributing classroom notes undermines instructor interests in their intellectual work product while not substantially furthering instructor and student interests in effective learning. Such actions violate shared norms and standards of the academic community. For additional information, please see: http://policy.umn.edu/Policies/Education/Education/STUDENTRESP.html.

**Sexual Harassment**
"Sexual harassment" means unwelcome sexual advances, requests for sexual favors, and/or other verbal or physical conduct of a sexual nature. Such conduct has the purpose or effect of unreasonably interfering with an individual’s work or academic performance or creating an intimidating, hostile, or offensive working or academic environment in any University activity or program. Such behavior is not acceptable in the University setting. For additional information, please consult Board of Regents Policy: http://regents.umn.edu/sites/default/files/policies/SexHarassment.pdf.

**Equity, Diversity, Equal Opportunity, and Affirmative Action:**
The University provides equal access to and opportunity in its programs and facilities, without regard to race, color, creed, religion, national origin, gender, age, marital status, disability, public assistance status, veteran status, sexual orientation, gender identity, or gender expression. For more information, please consult Board of Regents Policy: http://regents.umn.edu/sites/default/files/policies/Equity_Diversity_EO_AA.pdf.

**Disability Accommodations:**
The University of Minnesota is committed to providing equitable access to learning opportunities for all students. Disability Services (DS) is the campus office that collaborates with students who have disabilities to provide and/or arrange reasonable accommodations. If you have, or think you may have, a disability (e.g., mental health, attentional, learning, chronic health, sensory, or physical), please contact DS at 612-626-1333 to arrange a confidential discussion regarding equitable access and reasonable accommodations. If you are registered with DS and have a current letter requesting reasonable accommodations, please contact your instructor as early in the semester as possible to discuss how the accommodations will be applied in the course. For more information, please see the Disability Services website, https://diversity.umn.edu/disability/.

Further information is available from Disabilities Services (McNamara Alumni Center, 200 Oak Street SE, Suite 180, Minneapolis Campus. Phone: 612-626-1333 (V/TTY).

If you have a disability that requires accommodation in this course, please see me as soon as possible. I am happy to make appropriate accommodations, provided timely notice is received.

**Mental Health and Stress Management:**
As a student you may experience a range of issues that can cause barriers to learning, such as strained relationships, increased anxiety, alcohol/drug problems, feeling down, difficulty concentrating and/or lack of motivation. These mental health concerns or stressful events may lead to diminished academic performance and may reduce your ability to participate in daily activities. University of Minnesota services are available to assist you. You can learn
more about the broad range of confidential mental health services available on campus via the Student Mental Health Website: http://www.mentalhealth.umn.edu.

**Academic Freedom and Responsibility:**
Academic freedom is a cornerstone of the University. Within the scope and content of the course as defined by the instructor, it includes the freedom to discuss relevant matters in the classroom. Along with this freedom comes responsibility. Students are encouraged to develop the capacity for critical judgment and to engage in a sustained and independent search for truth. Students are free to take reasoned exception to the views offered in any course of study and to reserve judgment about matters of opinion, but they are responsible for learning the content of any course of study for which they are enrolled.*

Reports of concerns about academic freedom are taken seriously, and there are individuals and offices available for help. Contact the instructor, the Department Chair, your adviser, the associate dean of the college, or the Vice Provost for Faculty and Academic Affairs in the Office of the Provost. [Customize with names and contact information as appropriate for the course/college/campus.]

* Language adapted from the American Association of University Professors "Joint Statement on Rights and Freedoms of Students".

**Assessment:**
Student assessment will be determined as follows:
Mid-Semester Exams (2) and Final Exam - 35%
Homework assignments - 20%
Class Project (Full Semester) - 25%
Class Participation/Activities - 20%
TOTAL - 100%

**Grades:**
Letter grades will be calculated by the following formula:
A - represents achievement that is outstanding relative to the level necessary to meet course requirements.
   A  95.00 and above
   A- 90.00 - 94.99
B - represents achievement that is significantly above the level necessary to meet course requirements.
   B+ 87.00 - 89.99
   B  83.00 - 86.99
   B- 80.00 - 82.99
C - represents achievement that meets the course requirements in every respect.
   C+ 77.00 - 79.99
   C  73.00 - 76.99
   C- 70.00 - 72.99
D - represents achievement that is worthy of credit even though it fails to meet fully the course requirements.
   D+ 65.00 - 69.99
   D  60.00 - 64.99
**F** - represents failure (or no credit) and signifies that the work was either (1) completed but at a level of achievement that is not worthy of credit or (2) was not completed and there was no agreement between the instructor and the student that the student would be awarded an “I” (see also I).

**F** 59.99 and below

**I** - Assigned at the discretion of the instructor. This grade can only be given when, due to extraordinary circumstances (e.g., hospitalization) a student who has successfully completed a substantial portion of the course’s work with a passing grade was prevented from completing the work of the course on time. This grade requires a written agreement between instructor and student specifying the time and manner in which the student will complete the course requirements. In no event may any such written agreement allow a period of longer than one year to complete the course requirements.

For additional information, please refer to: [http://policy.umn.edu/Policies/Education/Education/GRADINGTRANSCRIPTS.html](http://policy.umn.edu/Policies/Education/Education/GRADINGTRANSCRIPTS.html).

**Exam Policy:**
You are required to take the final exam at the time shown in the University of Minnesota calendar. If you have an exam conflicting with the final exam or three final exams within a 16-hour period, you may request a time adjustment by contacting your college office and your instructor. Such a request must be presented at least two weeks before the examination period begins.

*If you are unable to take an exam:*  
If a student is unable to take a scheduled examination for medical or other adverse reasons, she/he can and should apply for a special examination. Applications made on medical grounds should be accompanied by a medical certificate; those on other grounds must be supported by a personal declaration stating the facts on which the application relies. Students should contact their instructor at least 1 week prior to the scheduled exam time to request consideration for a special examination. The following would generally be considered acceptable grounds to approve a special examination:  
(a) illness or a serious health problem;  
(b) serious personal or emotional trauma;  
In cases of chronic illness and/or disability likely to affect study and examination performance, the student should, as soon as possible, make contact with the Disability Services who can assist in various aspects of the student's academic work, including assessment where appropriate.

*If you miss an exam:*  
Contact your instructor (preferably by email) immediately, or as soon as the situation allows, if you miss an exam for any reason. Students missing exams for valid (e.g., medical, bereavement) reasons must notify the instructor in advance, where possible, and provide documentation if requested.

**Participation in Lecture and Discussion Classes:**
A significant portion of your grade will be determined by your level of participation in lecture and discussion. Unexcused absences automatically result in no points for that day’s participation.
Discussion: Attendance in discussion sections is especially important as discussion is your main opportunity to apply concepts from lecture to real world problems- a crucial component of this course. Additionally, many discussions require cooperating with peers making your presence in discussion critical to the success of your group. If you must miss a discussion you are required to let us and your group know beforehand. To get credit for a missed (and excused!) discussion absence you must document that you’ve contributed to your group project for that week.

Grade Disputes: Students who feel an assignment or exam question has been graded unfairly should submit a written explanation with supporting evidence (for example, Why was your response valid given the concepts of the course?) within one week of the return of the assignment or exam. We will respond to such concerns within a week of receiving them either in writing or in a discussion with you.

The Student Conflict Resolution Center in 254 Appleby Hall, 128 Pleasant Street SE, U of MN, East Bank Campus (612-624-7272) provides assistance for students with campus-based concerns. In addition to handling individual cases, the majority of which are grading and instructional complaints, the office also functions in a proactive way to prevent problems in this area.

Assigned Readings: There is no required textbook for this class, readings for every class will be provided online via the moodle website. You are expected to have done the reading before coming to class so that you are able to understand lecture material and effectively participate in any discussions.
